HAZARDOUS MATERIALS BUSINESS PLAN

For use by Unidocs Member Agencies or where approved by your Local Jurisdiction

Authority Cited: Ch. 6.95 HSC; Title 19, Div. 2, CCR; Title 22, Div. 4.5, CCR

All facilities that handle virgin or waste hazardous materials in quantities subject to the State Hazardous Materials Business Plan (HMBP) reporting requirements described below are required to prepare and submit a HMBP to the local Unified Program Agency that administers the HMBP Program. If that local agency does not routinely forward first-responder HMBP copies to the local first-responder fire agency, you must also submit a copy of the HMBP to the local fire agency (see www.unidocs.org for details).

This One-Chemical-Per-Page Inventory Format Hazardous Materials Business Plan may be used for HMBP reporting. However, the Matrix Inventory Format is preferred. [This form was developed by the Certified Unified Program Agency (CUPA) as an alternative version of the Unified Program Consolidated Form (UPCF). Businesses have the option to use the UPCF adopted in state regulations. The CUPA may require businesses to provide additional information.]  Adobe PDF and Microsoft Word template versions of this HMBP and a HMBP which includes the Matrix Inventory Format are available at www.unidocs.org. You may complete your HMBP on-line using the Unidocs Online Hazardous Materials California Environmental Reporting System (CERS) Database at www.unidocs.org at https://cers.calepa.ca.gov/cers/. If you wish to use forms other than those included in this document or the Matrix Inventory Format Hazardous Materials Business Plan, please contact your local agency for guidance. Depending upon the nature of storage/handling of hazardous materials at the facility and whether or not this is a first-time submittal, other documents may be required to be submitted in addition to the HMBP [e.g., Onsite Hazardous Waste Treatment Forms, Underground Storage Tank (UST) Operating Permit Application pages, etc.].

What is a Hazardous Materials Business Plan?

A HMBP is a document containing detailed information on the storage of hazardous materials at a facility. Chapter 6.95 of California Health and Safety Code (HSC) and Title 19, Division 2, of the California Code of Regulations (CCR) require that facilities which use or store such materials at or above reporting thresholds submit this information.

What is the purpose of the Hazardous Materials Business Plan?

The intent of the HMBP is to satisfy federal and state Community Right-To-Know laws and provide detailed information for use by emergency responders. All persons at the facility qualified to serve as emergency coordinators must be thoroughly familiar with the contents and use of the HMBP, with the operations and activities of the facility, and with the locations of hazardous materials records maintained by the facility.

This HMBP has been developed to assist you in complying with the State requirements and to provide the fire department with adequate information about the type, quantity of—and management practices regarding—hazardous materials that are stored at your facility. It is intended to additionally satisfy some or all of the reporting requirements for the following programs: CalARP Program Registration; Hazardous Waste Generator Registration; and Hazardous Waste Contingency Plan.

Who must complete a Hazardous Materials Business Plan?

The owner/operator of a facility must complete and submit a HMBP for each site where any individual hazardous material or mixture containing a hazardous material is present at or above its reporting threshold at any time during the reporting year. Reporting thresholds are:

1. 500 pounds or more of any solid hazardous material. [HSC §25503.5(a)]
2. For liquid hazardous materials:
   a. More than 55 gallons of any type or 275 gallons aggregate quantity on site for lubricating oils as defined by HSC §25503.5(b)(2)(B). [HSC §25503.5(b)(2)(A)]
   b. 55 gallons or more of any other liquid, including waste oil. [HSC §25503.5(a)]
3. For hazardous material gases:
   a. More than 1,000 cubic feet (at standard temperature and pressure) of Oxygen, Nitrogen, or Nitrous Oxide stored/handled at a physician, dentist, podiatrist, veterinarian, or pharmacist’s place of business. [HSC §25503.5(b)(1)]
   b. More than 300 gallons of Propane used for the sole purpose of heating the employee working areas within the facility. [HSC §25503.5(d)]
   c. 200 cubic feet or more of any other gas. [HSC §25503.5(a)]
4. Amounts of radioactive materials requiring an emergency plan under Parts 30, 40, or 70 of Title 10 Code of Federal Regulations or applicable quantities specified in items 1, 2, or 3, above, whichever amount is smaller. [HSC §25503.5(a)]
Hazardous Materials Business Plan (continued)

5. Applicable federal threshold planning quantities for extremely hazardous substances listed in 40 CFR Part 355, Appendix A.

Note: Retail (Consumer) Products packaged for direct distribution to, and use by, the general public are exempt from HMBP requirements except where the local agency determines otherwise pursuant to HSC §25503.5(c)(1). [Unidocs member agency interpretation is that materials qualify for this exemption only if the following requirements are met: (1) The product is not dispensed from containers at the storage facility; (2) The product is stored in a “retail display area” as defined in Section 2802.1 of the California Fire Code (e.g., Quarts of oil sitting in a display area for sale at a service station are exempt, but oil used by a mechanic in the service bay is not exempt); (3) containers are no larger than 5 gallons (liquids) or 100 pounds (solids); and (4) Handling of the product does not present unacceptable risk to public health, safety, or the environment.]

What if I don’t handle any hazardous materials in amounts requiring a HMBP?

Facilities that are not required to complete a HMBP may still be required to register their hazardous materials with the local agency. See www.unidocs.org for details. (Note: The local agencies reserve the right to require a HMBP for any facility upon determination that the manner of use or storage of hazardous materials is such that additional information is necessary for emergency response purposes.)

What information is required to be submitted with the Hazardous Materials Business Plan?

The HMBP must contain the following elements:

- Business Activities page (Form and instructions attached)
- Business Owner/Operator Identification page (Form and instructions attached)
- Hazardous Materials Inventory Statement page(s) (Form and instructions attached)
- Facility Map(s) (Sample form and instructions attached)
- Emergency Response/Contingency Plan (Sample forms and instructions attached)
- Employee Training Plan (Sample form and instructions attached)

How often do I have to update or recertify my Hazardous Materials Business Plan?

Within 30 days of the occurrence of any of the following events, the HMBP must be revised and the revisions submitted to the local agency: (1) There is a 100% or more increase in the quantity of a previously disclosed material; (2) The facility begins handling a previously undisclosed material at or above the current reporting thresholds; (3) The facility changes address; (4) Ownership of the facility changes; or (5) There is a change in the name of the business. [HSC §25510]

Additionally, if the local agency determines that the HMBP is deficient in any way, the plan must be revised and the revisions submitted to the local agency within 30 days of the notice to submit a corrected plan. [HSC §25505(a)(2)]

Without regard to the above events, the owner, operator, or designated representative of the facility must complete and submit to the local agency a Hazardous Materials Business Plan Certification Form [or a copy of the current hazardous materials inventory and an updated certification signature and date at the bottom of the Business Owner/Operator Identification page] annually on or before March 1. [HSC §25503.3(c) and 19 CCR §2729.4(b)]

Facilities subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements must submit the following to satisfy annual inventory certification requirements: A Business Activities Page; Business Owner/Operator Identification Page with current signature and date; and Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page which lists an Extremely Hazardous Substance (EHS) handled at or above its Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less. [19 CCR §2729.5(c)]

The entire HMBP must be reviewed every three years to determine whether revision is needed. The facility owner, operator, or designated representative must certify that the review was performed and any needed changes were made. This certification is accomplished by completing and submitting to the local agency a Hazardous Materials Business Plan Certification Form if no changes have been made to the HMBP, or a copy of the complete HMBP with an updated certification signature and date at the bottom of the Business Owner/Operator Identification page. [HSC §25505(c)]

If all of the following conditions are met, facilities with an approved HMBP on file with the local agency are exempt from the requirements for annual inventory certification/submittal and triennial review/certification unless required by federal law or local ordinance. The site must: be an unstaffed remote facility located in an isolated sparsely populated area; be secured and inaccessible to the public; be marked with warning signs in accordance with California Fire Code requirements; and handle no more than: [HSC §25503.5(c)(6)]

- 500 gallons of combustible liquid fuel (e.g., diesel);
- 1,200 gallons of flammable gas fuel (e.g., propane);
- 200 gallons of corrosive battery electrolytes (liquid- or gel-type);
- 500 standard cubic feet of compressed inert gases (e.g., nitrogen); or
- 500 gallons of lubricating and/or hydraulic fluids.

Who is my local agency?

Unidocs member agency contact information is available on-line at www.unidocs.org/members.html.
## I. FACILITY IDENTIFICATION

<table>
<thead>

## F. LOCAL REQUIREMENTS

(You may also be required to provide additional information by your CUPA or local agency.)

- Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
- See CUPA for required forms.
Business Activities Page Instructions

You must include the Business Activities Page with all HMBP submittals where the Business Owner/Operator Identification Page and/or hazardous materials inventory page(s) are submitted. [Note: Numbering of the following instructions follows the Unified Program Consolidated Form (UPCF) Data Element numbers on the form. These data element numbers are used for electronic submittal and are the same as the numbering used in the Unified Program Data Dictionary in 27 CCR, Division 3.] Please number all pages of your submittal.

1. FACILITY ID NUMBER - This number is for agency use only. Leave this space blank.

2. EPA ID NUMBER - If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (USEPA) or California Identification number. If your facility generates more than 100 kilograms (kg) of a RCRA (i.e., federally regulated) hazardous waste per year, obtain a federal EPA ID Number by submitting EPA FORM 8700-12 to the USEPA. Otherwise, obtain a California EPA ID Number by submitting DTSC FORM 1358 to the Department of Toxic Substances Control (DTSC). Forms are available at www.dtsc.ca.gov.

3. BUSINESS NAME - Enter the complete Facility Name.

4. HAZARDOUS MATERIALS - Check the appropriate box to indicate whether you have any hazardous material on site in a quantity subject to Hazardous Materials Business Plan (HMBP) reporting requirements. (Refer to the HMBP instructions available on the Internet at www.unidocs.org/hazmat/business-plan/index.html). If "YES," you must submit a HMBP.

4a. REGULATED SUBSTANCES - Check the appropriate box to indicate whether you have any CalARP regulated substance on site. (Refer to www.oee.ca.gov www.calema.ca.gov for CalARP guidance documents regarding regulated substances.)

5. UNDERGROUND STORAGE TANKS (UST) - Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) §25316. If "YES," and you do not already have on file with your local agency a current UST Operating Permit Application - Facility page, UST Operating Permit Application - Tank page for each tank, UST Monitoring Plan, and UST Response Plan, then you must submit those documents. (Note: There is no UPCF page for the UST Response Plan.)

6. ABOVEGROUND PETROLEUM STORAGE - Check the appropriate box to indicate whether your facility has aggregate aboveground petroleum storage (including used oil) greater than 1,320 gallons in tanks or containers 55 gallons or larger. (There is no UPCF page for ASTs.) The following are exempt from this requirement: 1.) pressure vessels or boilers subject to Division 5 of the Labor Code; 2.) tanks containing hazardous waste if a hazardous waste facility permit has been issued by DTSC; 3.) aboveground oil production tanks regulated by the Division of Oil and Gas; and 4.) certain oil-filled electrical equipment, including, but not limited to, transformers, circuit breakers, and capacitors.

7. HAZARDOUS WASTE GENERATOR - Check the appropriate box to indicate whether your facility generates a waste that meets any of the hazardous waste criteria adopted pursuant to HSC §25141.

8. RECYCLE - Check the appropriate box to indicate whether your facility recycles more than 100 kg (approximately 220 pounds or 27 gallons) per month of recyclable material under a claim that the material is excluded or exempt per HSC §25143.2. If you check "YES," and you do not already have a current Recyclable Materials Report on file with the appropriate local Unified Program Agency (UPA), then you must also submit that report to the UPA. Check "NO" if you only send recyclable materials to an offsite recycler.

9. ONSITE HAZARDOUS WASTE TREATMENT - Check the appropriate box to indicate whether your facility engages in regulated onsite treatment of hazardous waste. If you check "YES," and you do not already have current Onsite Hazardous Waste Treatment Notification - Facility and Onsite Hazardous Waste Treatment Notification - Unit pages on file with the appropriate local UPA, then you must also submit those forms to the UPA.

10. FINANCIAL ASSURANCE - Check the appropriate box to indicate whether your facility has Permit by Rule (PBR) and/or Conditionally Authorized (CA) operations subject to financial assurance requirements for closure of an onsite treatment unit. If you check "YES," and you do not already have current "Certification of Financial Assurance" on file with the appropriate local UPA, then you must submit that form to the UPA.

11. HAZARDOUS WASTE REMOTE CONSOLIDATION SITE - Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. By answering "YES," you are indicating that you are a hazardous waste generator that collects hazardous waste initially at a remote site and subsequently transports the hazardous waste to a consolidation site you also operate. If you check "YES," and you do not already have current "Remote Waste Consolidation Site Annual Notification" page on file with the appropriate local UPA, then you must submit that form to the UPA.

12. HAZARDOUS WASTE TANK CLEANING - Check the appropriate box if any tank has been cleaned onsite per Title 22, Div. 4.5, Ch. 32, CCR with the intention of rendering it non-hazardous. If you check "YES," then you must submit a Hazardous Waste Tank Closure Certification to the appropriate local UPA.

13a. RCRA LARGE QUANTITY GENERATOR - Check the appropriate box to indicate whether your facility is a LQG.

14a. HHW COLLECTION SITE - Check the appropriate box to indicate whether your facility is a HHW Collection Site.

15. LOCAL REQUIREMENTS - Check with your local UPA before submitting this document to determine if any supplemental information is required.

You must include the Business Owner/Operator Identification Page with all HMBP submittals where the Business Activities Page and/or hazardous materials inventory page(s) are submitted. [Note: Numbering of the following instructions follows the Unified Program Consolidated Form (UPCF) Data Element numbers on the form. These data element numbers are used for electronic submittal and are the same as the numbering used in the Unified Program Data Dictionary in 27 CCR, Division 3.] Please number all pages of your submittal.

1. FACILITY ID NUMBER - This number is for agency use only. Leave this space blank.
2. BUSINESS NAME - Enter the complete Facility Name.
3. BEGINNING DATE - Enter the beginning year and date of the report.
4. ENDING DATE - Enter the ending year and date of the report.
5. BUSINESS PHONE - Enter the phone number, including area code and any extension.
6. BUSINESS FAX - Enter the fax number, including area code.
7. BUSINESS MAILING ADDRESS - Enter the facility's street or P.O. box mailing address, if different from the site address.
8. BUSINESS MAILING CITY - Enter the name of the city for the facility's mailing address.
9. BUSINESS MAILING STATE - Enter the state abbreviation for the facility's mailing address.
10. BUSINESS MAILING ZIP CODE - Enter the 5 or 9 digit zip code for the facility.
11. DUN & BRADSTREET - If the business has a D&B number, enter it here.
12. NAICS NUMBER - Enter the primary North American Industrial Classification System number.
13. NAICS CODE - Enter the 4 digit Standard Industrial Classification Code number for the facility's primary business activity.
14. SIC CODE - Enter the 3 digit Standard Industrial Classification Code number for the facility's primary business activity.
15. ZIP CODE - Enter the 5 or 9 digit zip code for the facility.
16. CITY - Enter the city or unincorporated area in which the facility is located.
17. OWNER PHONE - Enter the owner's phone number, including area code and any extension.
18. OWNER NAME - Enter the name of the facility owner, if different from the operator.
19. OWNER PHONE - Enter the owner's phone number, including area code and any extension.
20. OWNER MAILING ADDRESS - Enter the owner's name and mailing address.
21. OWNER MAILING STATE - Enter the 2 character state abbreviation for the owner's mailing address.
22. OWNER MAILING ZIP CODE - Enter the 5 or 9 digit zip code for the owner's mailing address.
23. ENVIRONMENTAL CONTACT NAME - Enter the name of the person, if different from the Business Owner or Operator, who will receive all environmental correspondence and will respond to enforcement activity.
24. CONTACT PHONE - Enter the environmental contact's phone number, including area code and any extension.
25. CONTACT MAILING ADDRESS - Enter the street or P.O. box mailing address where all environmental correspondence should be sent, if different from the site address.
26. CONTACT MAILING CITY - Enter the name of the city for the environmental contact's mailing address.
27. CONTACT MAILING STATE - Enter the 2 character state abbreviation for the environmental contact's mailing address.
28. CONTACT MAILING ZIP CODE - Enter the 5 or 9 digit zip code for the environmental contact's mailing address.
29. PRIMARY EMERGENCY CONTACT NAME - Enter the name of a representative (i.e., Emergency Coordinator) who can be contacted in the event of an emergency involving hazardous materials at the facility. This person shall have full facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
30. BUSINESS OPERATOR PHONE - Enter the operator's phone number, including area code and any extension.
31. BUSINESS OPERATOR NAME - Enter the name of the facility operator.
32. BUSINESS OPERATOR PHONE - Enter the operator's phone number, including area code and any extension.
33. BUSINESS PHONE - Enter secondary Emergency Coordinator's business phone number, including area code and any extension.
34. BUSINESS PHONE - Enter a phone number that will be answered 24 hours a day. If not the primary Emergency Coordinator's home phone number, then the number of an answering service able to immediately contact the primary Emergency Coordinator must be provided. Please note that this is a public document, so any telephone number provided is available to the general public any time a review of your facility's records is conducted.
35. PAGER NUMBER - Enter the pager number for the primary Emergency Coordinator, if available.
36. SECONDARY EMERGENCY CONTACT NAME - Enter the name of a secondary Emergency Coordinator who can be contacted in the event that the primary Emergency Coordinator is not available. The contact shall have full facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
37. TITLE - Enter the title of the primary Emergency Coordinator.
38. BUSINESS PHONE - Enter primary Emergency Coordinator's business phone number, including area code and any extension.
39. 24-HOUR PHONE - Enter a phone number which will be answered 24 hours a day. If not the primary Emergency Coordinator's home phone number, then the number of an answering service able to immediately contact the primary Emergency Coordinator must be provided. Please note that this is a public document, so any telephone number provided is available to the general public any time a review of your facility's records is conducted.
40. PAGER NUMBER - Enter the pager number for the primary Emergency Coordinator, if available.
41. ADDITIONAL LOCALY COLLECTED INFORMATION - Enter the complete mailing address to which bills for permit fees should be sent, if different from items 119-122, above. Enter the name and phone number for the property owner.
42. SIGNATURE OF OWNER/OPERATOR OR DESIGNATED REPRESENTATIVE - The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies that the signer is familiar with the information submitted, and that based on the signer's inquiry of those individuals responsible for obtaining the information, it is the signer's belief that the submitted information is true, accurate, and complete.
43. DATE - Enter the date that the document was signed.
44. NAME OF DOCUMENT PREPARER - Type or print the full name of the person who prepared the Business Plan information.
45. NAME OF SIGNER - Type or print the full name of the person signing this document.
46. TITLE OF SIGNER - Enter the title of the person signing this document.

If more hazardous components are present at greater than 1% by weight if non-carcinogenic, or 0.1% by weight if carcinogenic, attach additional sheets of paper capturing the required information.

### ADDITIONAL LOCALLY COLLECTED INFORMATION

**DOT Hazard Class:**

If EPCRA, Please Sign Here: ________________________________

If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, a signature is required at the bottom of the form if the page lists an Extremely Hazardous Substance (EHS) handled at or above its Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.
Hazardous Materials Inventory - Chemical Description Page Instructions

You must complete a separate inventory page for each individual hazardous material and hazardous waste that you handle at your facility in an aggregate quantity subject to Hazardous Materials Business Plan (HMBP) reporting requirements. (Refer to the HMBP instructions available on the Internet at www.unidocs.org/hazmat/business-plan/index.html.) The completed inventory must reflect all hazardous materials at your facility, reported separately for each building or outside storage area, with separate pages for unique occurrences of physical state, storage temperature, or storage pressure. Where the aggregate quantities of some hazardous materials are below the HMBP threshold reporting quantity, report the general hazard class of the materials (e.g., "Misc Flammable Liquids"), rather than the Common Name, and the aggregate quantity of all hazardous materials having this storage state which individually are below the threshold reporting quantity. [Note: Numbering of the following instructions follows the Unified Program Consolidated Form (UPCF) data element numbers on the form. These data element numbers are used for electronic submittal and are the same as the numbering used in the Unified Program Data Dictionary in 27 CCR, Division 3.] Please number all pages of your submittal.

1. FACILITY ID NUMBER - This number is for agency use only. Leave this space blank.
2. BUSINESS NAME - Enter the complete Facility Name.
3. ADD/DELETE/REVISE - Indicate whether the material is being added to the inventory, deleted from the inventory, or if information previously submitted is being revised. (Note: You may leave this blank if you resubmit your entire inventory annually.)
4. CHEMICAL LOCATION - Enter the building or outside area where the hazardous material is handled. A chemical stored at the same pressure and temperature in multiple buildings may be reported on a single page.
5. CHEMICAL LOCATION CONFIDENTIAL - EPCRA - You must check "Yes" to keep chemical location information confidential. If you do not wish to keep chemical location information confidential check "No."
6. GRID NUMBER - Enter the grid coordinates from your Business Plan Storage Map that correspond to the location of the hazardous material. If applicable, multiple grid coordinates can be listed.
7. CHEMICAL NAME - Enter the proper chemical name of the hazardous material. If the chemical is a mixture or waste, do not complete this field; complete the "Common Name" field instead.
8. EHS - Check "Yes" if the hazardous material is an Extremely Hazardous Substance (EHS) as defined in 40 CFR, Part 355, Appendix A. If the material is a mixture containing an EHS, leave this section blank and complete the section on hazardous components, below.
9. CAS # - Enter the Chemical Abstract Service (CAS) number for the hazardous material. For mixtures, enter the CAS number of the mixture if it has been assigned a number distinct from its components. If the mixture has no CAS number, leave this column blank and report the CAS numbers of the individual hazardous components in the appropriate section, below.
10. FIRE CODE HAZARD CLASSES - Provide this information if required by your local agency. A list of hazardous classes and instructions on how to determine which class a material falls under are included in the appendices of Article 80 of the Uniform Fire Code. If a material has more than one applicable hazard class, include all. Contact your local agency for guidance.
11. HAZARDOUS MATERIAL TYPE - Check the one box that best describes the type of hazardous material: pure, mixture or waste. If the material is a waste, check only the "Waste" box.
12. RADIOACTIVE - Check "Yes" if the hazardous material is radioactive or "No" if it is not.
13. CURIES - If the hazardous material is radioactive, use this area to report the activity in curies.
14. PHYSICAL STATE - Check the one box that best describes the physical state of the hazardous material.
15. LARGEST CONTAINER - Enter the total capacity of the largest container in which the material is stored.
16. FEDERAL HAZARD CATEGORIES - Check all categories that describe the physical and health hazards associated with the hazardous material.

### PHYSICAL HAZARDS

<table>
<thead>
<tr>
<th>Reactivity</th>
<th>FIRE: Flammable Liquids and Solids, Combustible Liquids, Pyrophorics, &quot;Common Name&quot; field instead.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Reactive: Unstable Reactives, Organic Peroxides, Water Reactives, Radioactives</td>
</tr>
<tr>
<td>- Pressure Release: Explosives, Compressed Gases, Blasting Agents</td>
<td></td>
</tr>
</tbody>
</table>

### HEALTH HAZARDS

<table>
<thead>
<tr>
<th></th>
<th>Acute Health (Immediate): Toxics, Highly Toxics, Irritants, Sensitizers, Corrosives, other hazardous chemicals with an adverse effect with short-term exposure</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Chronic Health (Delayed): Carcinogens, other chemicals with an adverse effect with long-term exposure</td>
</tr>
</tbody>
</table>

17. AVERAGE DAILY AMOUNT - Calculate the average daily amount of the hazardous material or mixture in this building or outside area. If this is a material that is new to this location, the amount shall be the average daily amount you project to be on hand during the course of the year. This amount must be consistent with the units reported in box 221 and must not exceed that of maximum daily amount.
18. MAXIMUM DAILY AMOUNT - Enter the maximum amount of each hazardous material or mixture handled in this building or outside area at any one time over the course of the year. This amount must contain, at a minimum, last year's reported inventory with the reflection of additions, deletions, or revisions projected for the current year. This amount must be consistent with the units reported in box 221.
19. ANNUAL WASTE AMOUNT - If the material is a hazardous waste, enter the estimated annual amount handled.
20. STATE WASTE CODE - If the material is a hazardous waste, enter the appropriate California 3-digit hazardous waste code as listed on the Uniform Hazardous Waste Manifest.
21. UNITS - Check the unit of measure most appropriate for the material. [Note: If the material is a federally defined Extremely Hazardous Substance (EHS) and the maximum daily amount is equal to or greater than the EPCRA reporting threshold, and is not a mixture, all amounts must be reported in pounds.]
22. DAYS ON SITE - List the total number of days during the year that the material is on site.
23. STORAGE CONTAINER - Check the boxes that describe the types of containers in which the material is stored.
24. STORAGE PRESSURE - Check the box that best describes the pressure at which the material is stored.
25. STORAGE TEMPERATURE - Check the box that best describes the temperature at which the material is stored.
26. HAZARDOUS COMPONENT (% BY WEIGHT) - If the material is a mixture, enter the percentage weight of the hazardous component(s). If a range of percentages is available, report the highest percentage in that range. (Repeat for components 2-5.)
27. HAZARDOUS COMPONENTS 1-5 NAME - If the material is a mixture, list the chemical name of each hazardous component in the mixture ranked by percent weight (refer to the MSDS or manufacturer). All hazardous components present at greater than 1% by weight if non-carcinogenic, or 0.1% by weight if carcinogenic, must be reported. If more than five hazardous components exceed these percentages, you may attach an additional sheet of paper to report the required information. When reporting wastes, mineral and chemical composition must be listed. (Repeat for components 2-5.)
28. HAZARDOUS COMPONENTS 1-5 EHS - Check "Yes" if the component of the mixture is considered an Extremely Hazardous Substance as defined in 40 CFR, Part 355, or "No" if it is not. (Repeat for components 2-5.)
29. HAZARDOUS COMPONENTS 1-5 CAS - List the Chemical Abstract Service (CAS) numbers as related to the hazardous components in the mixture. (Repeat for components 2-5.)
30. LOCALLY COLLECTED INFORMATION - Provide the primary U.S. Department of Transportation numerical Hazard Class if required by your local agency. Contact your local agency for guidance.

Emergency Response/Contingency Plan
(Hazardous Materials Business Plan Module)

Authority Cited: HSC§ 25504(b); 19 CCR §2731; 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste (or more than 1 kilogram of acutely hazardous waste or 100 kilograms of debris resulting from the spill of an acutely hazardous waste) per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a hazardous waste contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.

This site-specific Emergency Response/Contingency Plan is the facility’s plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. A copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e., contractual) emergency services arrangements have been made (see section 3, below).

1. Evacuation Plan:
   a. The following alarm signal(s) will be used to begin evacuation of the facility (check all that apply):
      - Bells;
      - Horns/Sirens;
      - Verbal (i.e., shouting);
      - Other (specify ____________________________________________________________________________)
   b. ☐ Evacuation map is prominently displayed throughout the facility.

   Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:
   - Fire/Police/Ambulance ................................................................. Phone No.: 911
   - State Office of California Emergency Management Agency- Services ..... Phone No.: (800) 852-7550

   b. Post-Incident Contacts*:
      - Certified Unified Program Agency (CUPA) ............................................. Phone No.: (____)
      - Local Hazardous Materials Program ..................................................... Phone No.: (____)
      - California EPA-Department of Toxic Substances Control (DTSC) ............ Phone No.: (____)
      - Cal-/OSHA Division of Occupational Safety and Health ............................. Phone No.: (____)
      - Air Quality Management District ............................................................ Phone No.: (____)
      - Regional Water Quality Control Board .................................................. Phone No.: (____)

   * Phone numbers for agencies in Unidocs Member Agency geographic jurisdictions are available at www.unidocs.org.

   c. Emergency Resources:
      - Poison Control Center* ................................................................. Phone No.: (800) 876-4766
      - Nearest Hospital: Name: ____________________________ Phone No.: (____)
      - Address: ____________________________ City: ____________________________

3. Arrangements With Emergency Responders:

   If you have made special (i.e., contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________________
4. Emergency Procedures:

Emergency Coordinator Responsibilities:

a. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the emergency coordinator (or his/her designee when the emergency coordinator is on call) shall:
   i. Identify the character, exact source, amount, and areal extent of any released hazardous materials.
   ii. Assess possible hazards to human health or the environment that may result from the explosion, fire, or release. This assessment must consider both direct and indirect effects (e.g., the effects of any toxic, irritating, or asphyxiating gases that are generated, the effects of any hazardous surface water run-off from water or chemical agents used to control fire, etc.).
   iii. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
   iv. Notify appropriate local authorities (i.e., call 911).
   vi. Monitor for leaks, pressure build-up, gas generation, or ruptures in valves, pipes, or other equipment shut down in response to the incident.
   vii. Take all reasonable measures necessary to ensure that fires, explosions, and releases do not occur, recur, or spread to other hazardous materials at the facility.

b. Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall:
   i. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from a explosion, fire, or release at the facility.
   ii. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.
   iii. Ensure that all emergency equipment is cleaned, fit for its intended use, and available for use.
   iv. Notify the California Environmental Protection Agency’s Department of Toxic Substances Control, the local CUPA, and the local fire department’s hazardous materials program that the facility is in compliance with requirements b-i and b-ii, above.

Responsibilities of Other Personnel:

On a separate page, list any emergency response functions not covered in the “Emergency Coordinator Responsibilities” section, above. Next to each function, list the job title or name of each person responsible for performing the function. Number the page(s) appropriately.

5. Post-Incident Reporting/Recording:

The time, date, and details of any hazardous materials incident that requires implementation of this plan shall be noted in the facility’s operating record.

Within 15 days of any hazardous materials emergency incident or threatened hazardous materials emergency incident that triggers implementation of this plan, a written Emergency Incident Report, including, but not limited to a description of the incident and the facility’s response to the incident, must be submitted to the California Environmental Protection Agency’s Department of Toxic Substances Control, the local CUPA, and the local fire department’s hazardous materials program. The report shall include:

   a. Name, address, and telephone number of the facility’s owner/operator;
   b. Name, address, and telephone number of the facility;
   c. Date, time, and type of incident (e.g., fire, explosion, etc.);
   d. Name and quantity of material(s) involved;
   e. The extent of injuries, if any;
   f. An assessment of actual or potential hazards to human health or the environment, where this is applicable;
   g. Estimated quantity and disposition of recovered material that resulted from the incident;
   h. Cause(es) of the incident;
   i. Actions taken in response to the incident;
   j. Administrative or engineering controls designed to prevent such incidents in the future.

6. Earthquake Vulnerability: [19 CCR §2731(e)]

As an attachment to this plan, you must identify any areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake-related ground motion.

7. Hazard Mitigation/Prevention/Abatement [19 CCR §2731(e)]

As an attachment to this plan, you must include procedures that provide for mitigation, prevention, or abatement of hazards to persons, property, or the environment. These procedures must be scaled appropriately for the size and nature of the business, the nature of the damage potential of the hazardous materials handled, and the proximity of the business to residential areas and other populations.
8. Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

### EMERGENCY EQUIPMENT INVENTORY TABLE

* Use the map and grid numbers from the Storage Map prepared earlier for your HMBP.

** Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.
All facilities that handle hazardous materials in HMBP quantities must have a written employee training plan. This plan is a required module of the Hazardous Materials Business Plan (HMBP). A blank plan has been provided below for you to complete and submit if you do not already have such a plan. **If you already have a brief written description of your training program that addresses all subjects covered below, you are not required to complete the blank plan, below, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. **[Note: Items marked with an asterisk (*) are required.]**

### 1. Personnel

- Internal alarm/notification *
- Evacuation/re-entry procedures & assembly point locations*
- Emergency incident reporting
- External emergency response organization notification
- Location(s) and contents of Emergency Response/Contingency Plan
- Facility evacuation drills, that are conducted at least **(specify):** (e.g., “Quarterly”, etc.)

### 2. Chemical Handlers

- Safe methods for handling and storage of hazardous materials *
- Location(s) and proper use of fire and spill control equipment
- Spill procedures/emergency procedures
- Proper use of personal protective equipment *
- Specific hazard(s) of each chemical to which they may be exposed, including routes of exposure (i.e., inhalation, ingestion, absorption) *

Hazardous Waste Handlers/Managers are trained in all aspects of hazardous waste management specific to their job duties (e.g., container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.) *

### 3. Emergency Response Team Members

- Personnel rescue procedures
- Shutdown of operations
- Liaison with responding agencies
- Use, maintenance, and replacement of emergency response equipment
- Refresher training, which is provided at least annually *
- Emergency response drills, which are conducted at least **(specify):** (e.g., “Quarterly”, etc.)
Record Keeping
(Hazardous Materials Business Plan Module)

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your record keeping procedures is a required module of the Unidocs Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials record keeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. **[Note: Items marked with an asterisk (*) are required.]**:

- Current employees’ training records *(to be retained until closure of the facility)*
- Former employees’ training records *(to be retained at least three years after termination of employment)*
- Training Program(s) *(i.e., written description of introductory and continuing training)*
- Current copy of this Emergency Response/Contingency Plan *
- Record of recordable/reportable hazardous material/waste releases *
- Record of hazardous material/waste storage area inspections *
- Record of hazardous waste tank daily inspections *
- Description and documentation of facility emergency response drills

*Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.*

**Note: The following section applies where local agencies require facility owners/operators to perform and document routine facility self-inspections:**

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-inspections of your facility must be submitted with your HMBP. **[Exception: Unidocs provides a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the Unidocs form (available at www.unidocs.org), you do not need to attach a copy.]**

Check the appropriate box:

- We will use the Unidocs “Hazardous Materials/Waste Storage Area Inspection Form” to document inspections.
- We will use our own documents to record inspections. *(A blank copy of each document used must be attached to this HMBP.)*
Facility Site Plan and Storage Map Instructions *(Moved from Page 15)*

(Hazardous Materials Business Plan Module)

A Site Plan (public document) and Storage Map (confidential document) must be included with your HMBP. For relatively small facilities, these documents may be combined into one drawing. However, if combined, the combined Site Plan/Storage Map will become a public document. If you are concerned about displaying the storage locations of hazardous materials to the public, you must provide a separate facility Storage Map. Since these drawings are intended for use in emergency response situations, larger facilities *(generally those with complex and/or multiple buildings)* should provide an overall site plan and a separate storage map for each building/storage area. A blank Facility Site Plan/Storage Map sheet has been provided on the following previous page. You may complete that page or attach any other drawing(s) that contain(s) the information required below:

1. **Site Plan (public document):** This drawing shall contain, at a minimum, the following information:
   a. An indication of North Direction;
   b. Approximate scale *(e.g., “1 inch = 10 feet”).*
   c. Date the map was drawn;
   d. All streets bordering the facility;
   e. Locations of all buildings and other structures;
   f. Parking lots and internal roads;
   g. Hazardous materials loading/unloading areas;
   h. Outside hazardous materials storage or use areas;
   i. Storm drain and sanitary sewer drain inlets;
   j. Wells for monitoring of underground tank systems;
   k. Primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas.

2. **Storage Map (confidential):** The map(s) shall contain, at a minimum, the following information:
   a. General purpose of each section/area within each building *(e.g., “Office Area”, “Manufacturing Area”, etc.).*
   b. Location of each hazardous material/waste storage, dispensing, use, or handling area *(e.g., individual underground tanks, aboveground tanks, storage rooms, paint booths, etc.).* Each area shall be identifiable by a Grid Number, to be used in item 204 on the Hazardous Materials Inventory - Chemical Description pages of the Business Plan;
   c. For tanks, the capacity limit in gallons and common name of the hazardous material contained in each tank;
   d. Entrances to and exits from each building and hazardous material/waste room/area;
   e. Location of each utility emergency shut-off point *(i.e., gas, water, electric).*
   f. Location of each monitoring system control panel *(e.g., underground tank monitoring, toxic gas monitoring, etc.).*
Facility Site Plan/Storage Map *(Moved from Page 14)*  
(Hazardous Materials Business Plan Module)
